"The TurboTax + LegalZoom of Pakistan."

From 3–5 days and Rs. 5,000 → to 5 minutes and Rs. 0.

 Project Name	Legal Saathi — LegalSaathi.pk	 Parent Entity	Nexvora Technologies
 Version	1.0 — Final Official Blueprint	 Target Market	Pakistan — B2C, B2B & SME Legal Tech

Table of Contents

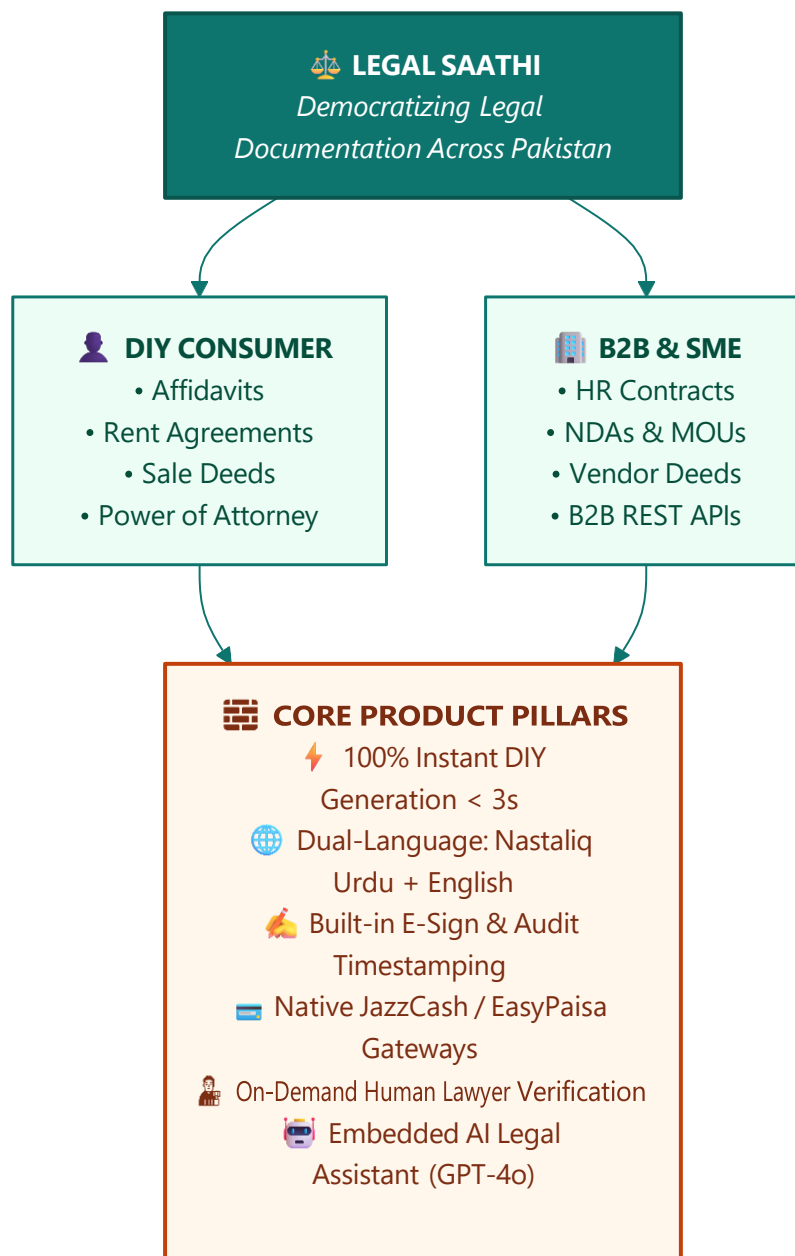

#	Section	Focus
1	Executive Summary	Vision, pitch & market scope
2	Market Analysis & Problem Statement	The pain we are solving
3	The Solution & Core Value Proposition	End-to-end user journey
4	Competitive Advantage & Market Moat	Why we win, and keep winning
5	Product Architecture & Feature Ecosystem	Catalog & functional modules
6	Software Requirements Specification (SRS)	Stack, topology & NFRs
7	Database Schema & Data Models	ERD & table specifications
8	Business Model & Monetization	Pricing tiers & revenue streams
9	Implementation Roadmap	32-week execution plan
10	Legal Compliance & Risk Framework	Statutory & security posture
11	Investor Memorandum & Growth Strategy	Thesis & viral mechanics

1. Executive Summary

I 1.1 Project Overview

Legal Saathi ([LegalSaathi.pk](#)) is Pakistan's premier bilingual (Urdu & English), AI-powered, do-it-yourself (DIY) legal document generation and verification platform, engineered by **Nexvora Technologies**. Legal Saathi provides individuals, freelancers, startups, and Small & Medium Enterprises (SMEs) with instant, court-compliant legal documentation without the traditional expense, friction, and delays of hiring an attorney.

By combining dynamic guided questionnaires, a lawyer-verified template library, side-by-side bilingual (Urdu Nastaliq and English) document rendering, built-in digital signatures, local payment integration (JazzCash, EasyPaisa, and Debit/Credit Cards), and an interactive AI Legal Assistant, Legal Saathi reduces the document creation lifecycle from **3–5 days to under 5 minutes**, while lowering costs from **thousands of rupees to pennies (or free)**.

1.2 The Elevator Pitch

💡 In Pakistan, drafting a routine legal agreement costs between Rs. 1,500 and Rs. 10,000, requiring physical visits to crowded courts (*Kachehri*) and waiting up to 5 days.

Legal Saathi is the "TurboTax + LegalZoom of Pakistan" — a self-service, bilingual web and mobile platform where any citizen or business can generate, e-sign, and download a court-acceptable legal document in **under 5 minutes** with AI guidance, **starting for free**.

1.3 Key Highlights & Market Scope

Metric	Scope
 Total Addressable Market (TAM)	240M+ population in Pakistan, with 10M+ formal legal transactions annually across real estate, employment, affidavits, tenancy, and commercial contracts
 Serviceable Addressable Market (SAM)	110M+ mobile broadband users · 5M+ SMEs and freelancers · millions of urban tenants and landlords
 Architecture	Enterprise-grade ASP.NET Core 8.0 backend API · Next.js web frontend · Flutter cross-platform mobile apps · Microsoft SQL Server

2. Market Analysis & Problem Statement

2.1 The Traditional Legal Landscape in Pakistan

In Pakistan, drafting standard legal documents presents substantial friction for citizens and businesses alike:

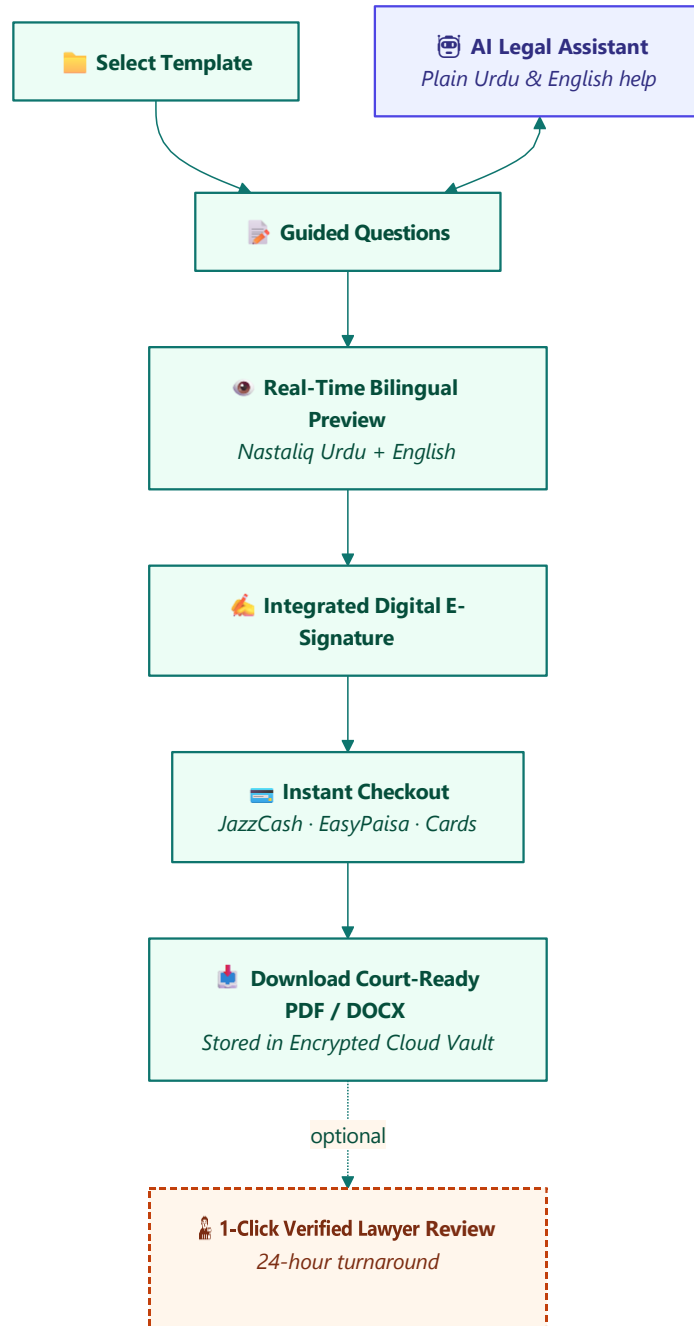

#	Problem	Impact
1	 Prohibitive Costs	Advocates and document typists (<i>Wasiqa Nawees</i>) charge Rs. 1,500 – Rs. 5,000 for basic agreements, and up to Rs. 25,000+ for business contracts — a hard financial barrier for the average citizen and early-stage startup.
2	 Extreme Turnaround Delays	Obtaining a drafted agreement requires travelling to district courts, multiple rounds of manual edits, and turnaround times of 24 to 72+ hours .
3	 Severe Language & Jargon Barriers	Templates are almost exclusively drafted in complex, archaic English. Non-English speakers cannot comprehend their rights and obligations — leading to exploitative terms and unresolvable disputes.
4	 Court Invalidation Risks	Generic internet templates routinely fail provincial stamp paper formatting rules, violate mandatory clauses under the <i>Contract Act of 1872</i> , or omit essential statutory protections.
5	 Absence of Digital Self-Service	Existing local "legal platforms" are merely lead-generation portals for law firms — submit a contact form, then wait days for manual intervention.

2.2 Status Quo vs. Legal Saathi

Dimension	 Traditional Legal Ecosystem	 Legal Saathi
Time to Delivery	24 – 72 hours	☒ Under 5 minutes
Average Price	Rs. 1,500 – Rs. 5,000	☒ Free to Rs. 499
Language Access	English only (complex jargon)	☒ Side-by-side Urdu / English
Drafting Method	Manual typist / lawyer middleman	☒ Automated smart form
Execution Method	Physical print, stamp & sign	☒ Digital e-signature
Device Accessibility	In-person / desktop only	☒ Mobile-first SaaS

3. 💡 The Solution & Core Value Proposition

Legal Saathi provides an automated, end-to-end legal infrastructure that empowers anyone to generate, customize, verify, and execute legally binding agreements instantly.

 Core Value Drivers

	Driver	Description
	Speed	Generates court-ready documents in sub-3 seconds upon questionnaire completion.
	Affordability	Freemium access for essential public documents; nominal micropayments for complex contracts.
	Bilingual Equality	Simultaneous English and Urdu (Nastaliq script) ensures mutual comprehension between contracting parties.
	Court Acceptability	Formatted to Pakistani provincial stamp paper specifications and legal statutory guidelines.

4. Competitive Advantage & Market Moat

Legal Saathi maintains a distinct, defensible position in the Pakistani legal tech ecosystem through **nine structural advantages**:

#	Advantage	What It Means
1	 True DIY Self-Service	Instant generation without lawyer delays
2	 Bilingual Dual-View	Side-by-side English & Nastaliq Urdu text
3	 TurboTax-Style UX	Plain-language forms; zero upfront jargon
4	 Transparent Pricing	100% free tier + Rs. 199 – 499 premium tiers
5	 Built-in E-Signatures	Canvas drawing & OTP verification
6	 Local Mobile Payments	Direct JazzCash & EasyPaisa integration
7	 On-Demand Lawyer Network	Optional 24-hour expert review marketplace
8	 AI Legal Saathi	Plain-language document advisory engine
9	 Tech-Founder Execution	High-scale ASP.NET Core & Flutter stack

5. Product Architecture & Feature Ecosystem

5.1 Document Catalog — Launch Portfolio

👤 1. Personal & Family	🏠 2. Real Estate & Tenancy
- General Affidavit / Oath Certificate (<i>Bayan-e-Halfi</i>) - Loss of CNIC / Academic Degree Affidavit - Character & Residence Declaration Certificate - General & Special Power of Attorney (<i>Mukhtar Nama</i>)	- Residential Rent Agreement (Bilingual Urdu–English) - Commercial Property Lease Agreement - Plot / House Token & Sale Agreement (<i>Bayana Receipt</i>) - Notice of Tenancy Vacation / Eviction
📁 3. Business, Freelance & SME	🚗 4. Vehicles & Assets
- Non-Disclosure Agreement (NDA) - Freelancer Independent Contractor Agreement - Full-Time & Part-Time Employment Contracts - Memorandum of Understanding (MOU) - Partnership Deed (<i>Sharakat Nama</i>)	- Motor Vehicle / Motorcycle Sale Deed & Delivery Receipt - Promissory Note & Debt Acknowledgment (<i>Iqrar Nama</i>)

5.2 Key Functional Modules

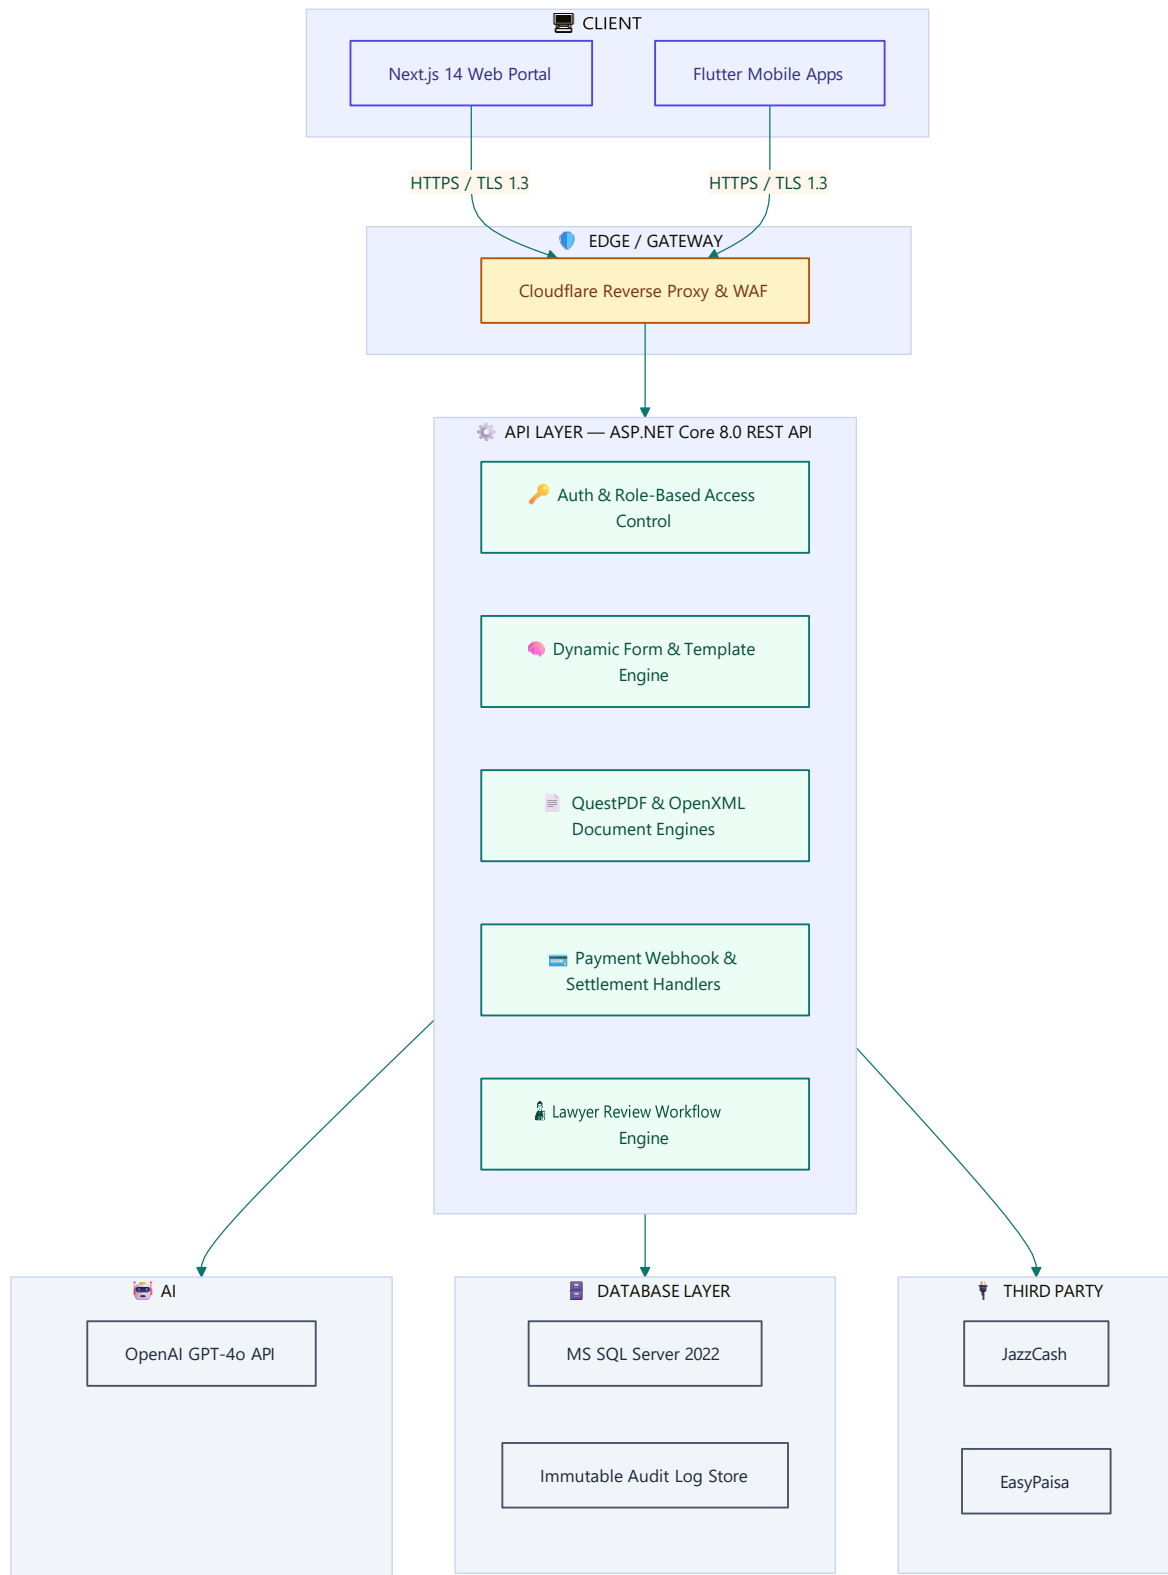

#	Module	Capability
1	 Dynamic Smart Form Wizard	Adaptive questionnaire engine presenting context-sensitive follow-up questions (conditional fields for security deposits, maintenance splits, probationary periods).
2	 Bilingual Side-by-Side Renderer	High-fidelity generation engine supporting right-to-left (RTL) <i>Jameel Noori Nastaliq</i> Urdu typography alongside left-to-right (LTR) legal English.
3	 AI Legal Saathi Chatbot	Embedded conversational assistant that suggests templates, explains clauses in simple terms, and answers context-specific questions.
4	 Multi-Modal E-Signature Suite	In-app touch/stylus canvas signing, signature upload, and OTP-authenticated digital verification with full audit trails.
5	 On-Demand Lawyer Marketplace	Streamlined review system: submit drafts to licensed advocates for verification, edits, and an official digital stamp within 24 hours.
6	 Encrypted Cloud Vault	Secure repository to store, retrieve, re-download, and share completed agreements.

6. Software Requirements Specification (SRS) & System Architecture

6.1 Technology Stack

Layer	Component	Selected Technology
 Presentation	Web Frontend	Next.js 14 / React 18, TypeScript, Tailwind CSS
	Mobile Apps	Flutter (iOS & Android)
 Application	Backend API	ASP.NET Core 8.0 RESTful Web API (C#)
	ORM & Architecture	ADO.NET (Stored Procedures)
 Data	Database	Microsoft SQL Server 2022
 Documents	PDF Engine	QuestPDF / iTextSharp (with Urdu RTL typography)
	DOCX Engine	OpenXML SDK
 Intelligence	AI Engine	OpenAI GPT-4o API with Pakistani Law prompt guardrails
 Commerce	Payment Gateways	JazzCash API, EasyPaisa API, PayFast (Debit/Credit)
 Security	Authentication	ASP.NET Core Identity, JWT, dual SMS & Email OTP

6.2 System Architecture Topology

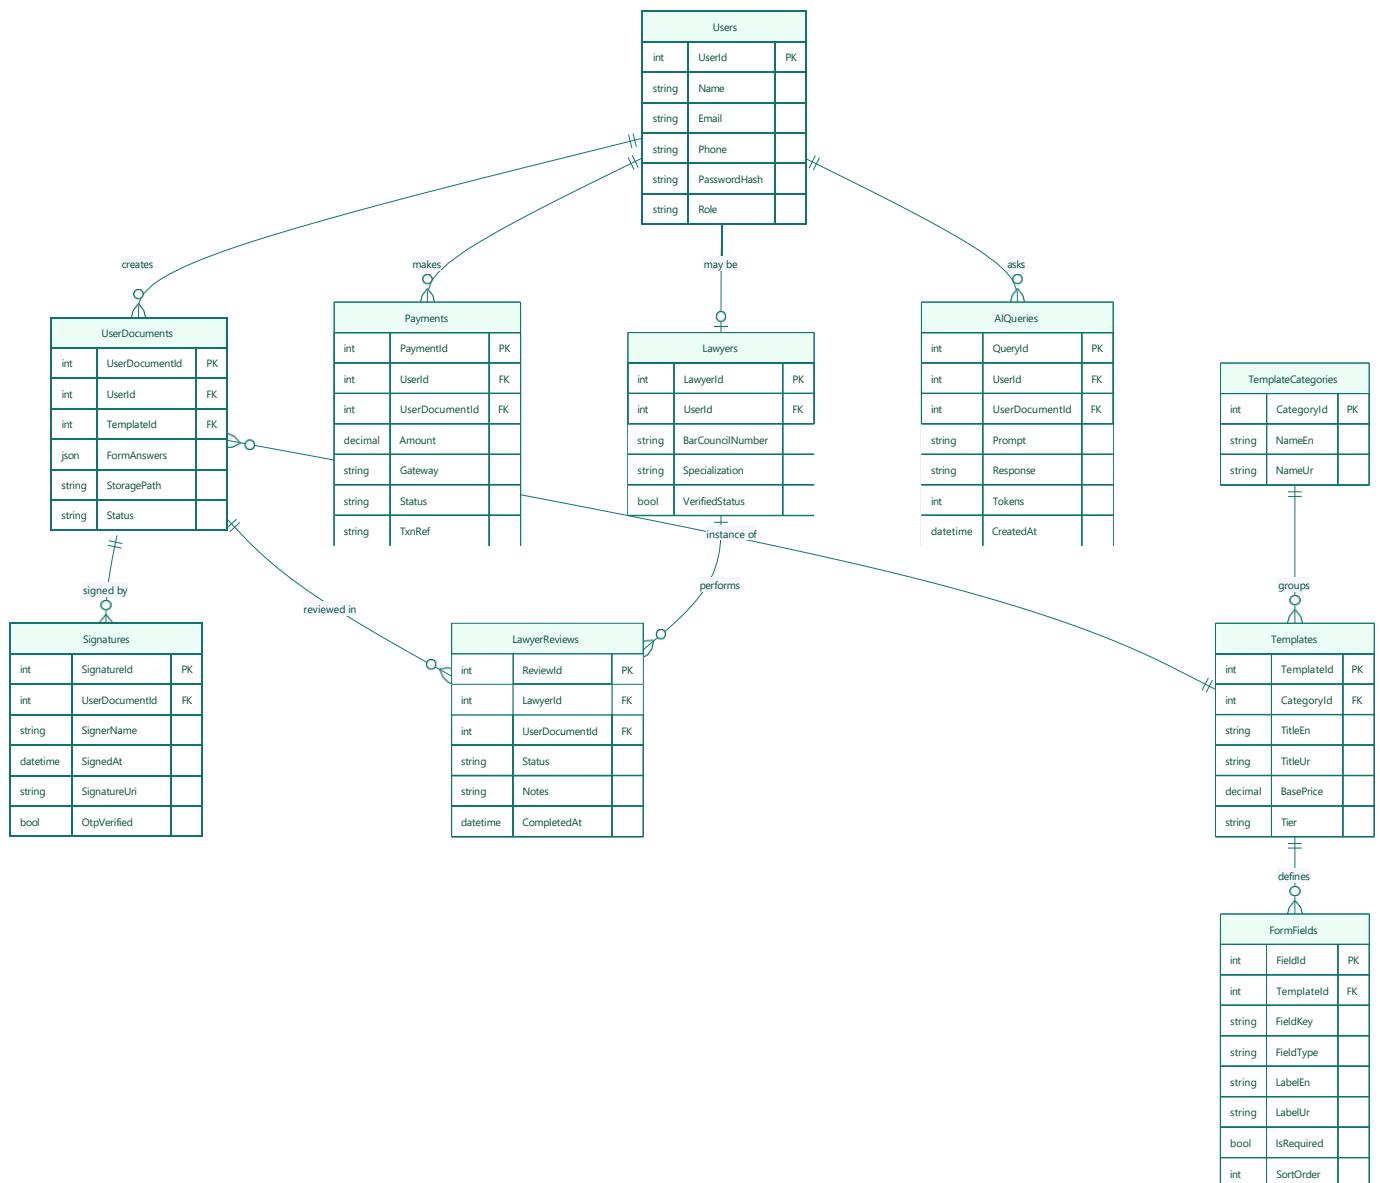

6.3 Non-Functional Requirements (NFR)

	Requirement	Target
	Performance	Document compilation and rendering completed in under 3.0 seconds
	Scalability	Horizontal container scaling supporting up to 10,000 concurrent active sessions
	Availability	99.5% uptime SLA with automated cloud failover and daily point-in-time backups
	Security	AES-256 encryption at rest · TLS 1.3 in transit · JWT authentication with refresh tokens
	Compliance	Strict adherence to Pakistan's <i>Electronic Transactions Ordinance 2002</i> and provincial e-Stamp paper dimensions

7. Database Schema & Data Models

7.1 Entity Relationship Model

7.2 Database Table Specifications

#	Table	Purpose
1	Users	Identity, authentication credentials, roles (EndUser , Lawyer , CorporateAdmin , SuperAdmin), contact information, verification status.
2	TemplateCategories	Organizes legal documents into functional categories (Personal, Real Estate, Business, Vehicles).
3	Templates	Master document definitions: bilingual titles, pricing tiers, template markup, legal metadata.
4	FormFields	Dynamic inputs per template — input types, English/Urdu labels, regex validations, sort order, conditional logic.
5	UserDocuments	Generated document instances, completed form answers (JSON), compiled storage paths, status flags.
6	Signatures	Digital signatures, image assets, signer IP addresses, timestamps, OTP verification records.
7	Payments	Transaction records across JazzCash, EasyPaisha, and card gateways — payment status and transaction references.
8	Lawyers	Advocate profiles, Bar Council credentials, specializations, verification badges.
9	LawyerReviews	Review assignments, advocate annotations, approved modifications, turnaround metrics.
10	AIQueries	Logs AI assistant interactions for contextual continuity, quality monitoring, and audit compliance.

8. Business Model, Pricing & Monetization Strategy

Legal Saathi employs a **hybrid monetization framework** combining high-volume freemium customer acquisition, pay-per-document micro-transactions, marketplace commissions, and recurring B2B SaaS subscriptions.

 1. Pay-Per-Doc Micropayments	 2. Lawyer Services Marketplace	 3. B2B & SME SaaS
• Free Tier: Rs. 0 • Standard: Rs. 199 • Premium: Rs. 499	• Rs. 1,499 per document • 70% to the lawyer • 30% platform share	• Starter: Rs. 2,999 / mo • Agency: Rs. 7,999 / mo • Custom API plans

8.1 Detailed Pricing Structure

Tier	Price	Included Documents	Key Features
 Tier 0 — Free Public Utility	Rs. 0	Basic Affidavits (Lost CNIC, Duplicate Degree, Statement of Fact)	100% free court-ready PDF generation — drives organic acquisition and viral adoption
 Tier 1 — Standard Documents	Rs. 199 <i>(~\$0.70)</i>	Residential Rent Agreements, Vehicle Sale Deeds, Basic NDAs	Instant PDF & DOCX downloads with basic digital signature support
 Tier 2 — Premium Business & Property	Rs. 499 <i>(~\$1.80)</i>	Commercial Leases, Employment Contracts, Power of Attorney, MOUs, Partnership Deeds	Multi-party signature routing, bilingual side-by-side export, encrypted cloud vault
 Lawyer Review Add-On	Rs. 1,499 <i>(~\$5.40)</i>	Any generated document	Professional review by a licensed advocate within 24 hours · 70/30 revenue split
 Tier 3a — SME Starter Plan	Rs. 2,999 / month	25 document generations per month	Custom company branding, employee agreement onboarding
 Tier 3b — Real Estate / Enterprise	Rs. 7,999 / month	Unlimited tenancy & sale agreements	Multi-agent logins, bulk generation, full REST API access

9. Implementation Roadmap & Milestones

The product development timeline is divided into **three execution phases** designed to maximize speed to market while maintaining rigorous engineering standards.

 Timeline is illustrative: Week 1 is anchored to a 5 January 2026 kickoff. Phase durations (8 / 10 / 14 weeks) are the binding commitment; calendar dates shift with the actual start date.

 Phase Breakdown

 Phase 1 — Core MVP Weeks 1 – 8	 Phase 2 — Commercial Launch Weeks 9 – 18	 Phase 3 — B2B Scale & Ecosystem Weeks 19 – 32
- Dynamic Form Engine & Bilingual Template Renderer (Urdu & English) - Launch 7 core documents (Affidavits, Rent Deed, Vehicle Sale, NDA, HR) - PDF / DOCX generation with QuestPDF & OpenXML - AI Legal Saathi form assistant (OpenAI GPT-4o API) - Closed beta pilot with 20 real estate agents and HR professionals	- Integrated JazzCash, EasyPaisa, and card payment checkouts - Launch Flutter mobile apps on Google Play Store & Apple App Store - Multi-party e-signatures with OTP verification - Launch on-demand lawyer review marketplace - Expand template library to 35+ standard documents	- Multi-tenant B2B SaaS dashboard for corporate clients & agencies - REST APIs for real estate portals (Zameen / Graana) and HR systems - Company incorporation packages (SECP & FBR compliance templates) - Digital notarization & land record integrations

10. Legal Compliance, Security & Risk Framework

10.1 Pakistani Statutory Compliance

Framework	Compliance Position
 Electronic Transactions Ordinance (ETO) 2002	All electronic agreements, digital communications, and e-signatures generated on Legal Saathi comply fully with Sections 3 and 8 of the ETO 2002, ensuring evidentiary validity in Pakistani courts.
 The Stamp Act, 1899 & Provincial e-Stamp Systems	Documents are generated with precise printable margins and header clearances, allowing direct printing onto provincial e-Stamp papers (Punjab, Sindh, KPK, Balochistan).
 Regulatory Disclaimer	Explicit disclaimers clarify that Legal Saathi is an automated self-help document software platform , not a replacement for legal counsel — unless the on-demand lawyer review add-on is explicitly requested.

10.2 Security & Data Privacy

	Control	Implementation
	Encryption Standards	All database records, user information, and document payloads encrypted with AES-256 at rest; API communications require TLS 1.3 .
	Tamper-Proof Audit Logging	Every document creation, signature capture, and status change is immutably logged with client IP addresses, device user-agents, and cryptographic timestamps.
	Multi-Tenant Data Isolation	Strict database-level tenant isolation ensures enterprise and corporate client documents remain fully secure and inaccessible to unauthorized parties.

11. Investor Memorandum & Growth Strategy

Key Investment Thesis

#	Thesis Pillar	Substantiation
1	 Massive Underserved Market	240M+ population; effectively zero modern DIY legal options
2	 High-Margin SaaS Economics	85%+ gross margin on automated document generation
3	 Viral Growth Engine	Every document invites 2+ counterparties onto the platform to sign
4	 Defensible Technology Moat	Proprietary Urdu NLP and bilingual rendering engine
5	 Scalable B2B Expansion	Direct entry into the PropTech and HR-tech ecosystems

11.1 Viral Growth & Acquisition Mechanics

 **Built-In Document Distribution** Legal contracts inherently require multiple signatories — landlord + tenant, employer + employee, buyer + seller. Whenever a document is shared for digital signature, the counterparty is seamlessly introduced to Legal Saathi.

Strategic Ecosystem Partnerships

Partner Segment	Strategic Value
 Real estate agencies & property portals	Automated tenancy leases at scale
 Freelancer hubs, co-working spaces, incubators	Startup legal packs as an onboarding perk
 Provincial Bar Councils	Pipeline for onboarding verified reviewing lawyers

11.2 The Long-Term Vision

PK Legal Saathi aims to become the foundational digital trust and legal infrastructure layer for Pakistan — powering document generation, corporate compliance, and verified digital signatures for millions of citizens and businesses.
